**Subject: Ready to Wear Boulder Earrings, Pendants & Freeform Strands  
OFFER 6 May 2011**

Hi Folks

Today we offer you pairs of Boulder Opals to use as earrings. In fact we have split a very beautiful strand of beads to do so and we are genuinely pleased at the matching pairs that have come up. The 15mm round \$145 pair are particularly beautiful, the white and colour goes right around the stone and can be seen all ways. The more expensive pairs have lovely greens. I doubt that many people would be able to offer you such earrings.

For inexpensive pendants we suggest the Boulder Fun Stones. There is an absolutely gorgeous Boulder Matrix Opal Fun Stone 74.3cts for only \$280. It's impossible to buy such things for only \$4/ct, same with the Boulder Fun Stone for \$160 shaped like a moon or a semi circle. These Fun Stones are drilled and all you have to do is place a wire choker or leather strap through the holes as suggested by most able assistant Heather.

The Boulder Freeform beads are wonderful value for what they are. There are many many carats for instance there is one for 77cts with well over 20 stones for only \$225 which is \$3/ct. There is another freeform strand 125cts for only \$1/ct.

We would remind you that the Australian dollar today is worth more than the US dollar so you are actually getting it for less than \$1AU.

These are tremendous buys, you could make a couple of bracelets from a strand or use the freeform beads as fill ins with other coloured material, there are just so many uses. I doubt you could get some of this opal cut for the price we are selling them to you.

Good buying.

Lets hear from you.

Regards

Murray
