Subject: **Calibrated Solids (metric sizes) OFFER 20 Sep 2012**

Hi Folk

Today we are going to offer you calibrated solid opals and a few smaller calibrated triplets. I am sure many of you would prefer to buy the very small solids than attempt to cut them. We have them cut in mainland China at very reasonable prices, that's why we can offer them to you.

For instance the 3.5cts of 3mm rounds for only \$52.50, there must be about 60 stones. I don't think you'd be bothered to cut those for less than \$1 each yourself and have to provide the material.

The Mixed 3mm, 4mm round, pear shaped and marquis are beautiful blue greens. There would have to be in excess of 50 stones there for only \$107.50. Such packets are often referred to as melee.

I doubt that many of you would be aware that we even carried such stock, it was Heather's idea to let you know.

Again we look forward to hearing from you.

Regards

Murray & Heather
