DROP EVERYTHING AND LOOK AT THIS

We have a Queensland Boulder Opal Pipe here which is a belemnite, it has the most magnificent crystal of golds and greens. The largest part of the pipe would make a great ring, the next two pieces would make great drop earrings and the smallest part could be a pendant, an exact matching set. These four pieces weigh a total of .22oz. If you would like us to cut this set for you we would be happy to do it with the cost of the opal and the cost of the cutting totalling only \$2,500. This is some of the best Boulder opal crystal that we have ever had the fortune to own.

Once again first in best dressed.

Regards

Murray
