Hi Folks

Some of you will remember that I was in Coober Pedy for the Coober Pedy Easter Opal Festival. Today we have two large grades of opal that we are going to offer you. The first is Coober Pedy Blues, Greens with a little Red 26oz at only \$160/oz. Once again you don't have to buy the whole parcel, you are welcome to buy as many ounces as you wish although one of our dealer clients would be wise to buy them all. We hope that doesn't happen so you can all have a go at it. Heather has taken some pictures and there is 1oz just by itself already weighed out with 11 stones in it, so the stones are only \$14.54 each which is ridiculous for such bright material. Some of the stones have some magnificent rolling flash. It's exciting to be able to offer you opal with such brilliant colours for such little money. If we didn't have contacts over the 45 years on the field you'd never see material like this for this money, I'm selling it to make a profit not for what it's worth, it's worth a lot more than I ask.

The second parcel I have to offer you weighs 125oz and it contains stones from 1.4 grams up to 58.1 grams. This parcel is also from Opal Ridge, it's from the same mine as the \$160 material. It is predominantly grey base with blues, greens, some reds but there are some white base stones in there. Folks today there is hardly any opal at \$40/oz available on the field let alone such \$40/oz delivered to your door.

Again, it wouldn't surprise me if one of our dealer clients bought the lot. We are prepared to split it into many smaller parcels as you wish, you can buy 1oz, 3oz, 5oz, 10oz it's up to you. Grab it while you can.
