HB

I am not really going to say much about the items in today's Offer because most of them are not Opals or Chrysoprase which are our specialties. Most of these items are really unknown to me. I don't know anything about black onyx, jasper or blue lace agate. I don't know anything about silver rings other than the fact that what we are offering here are bargain prices.

There are two things that I will speak of, the first is a beautiful Malachite pendant set in sterling silver, this piece belongs to Heather, my personal assistant, it was for sale in the gallery in the early 2000's for \$175. Heather is only asking \$125.

There is one magnificent Andamooka Super Gem colour pendant set in 9k gold, the stone would weigh approximately 1.75cts, it is just magnificent crystal, there is a natural sandstone bar that goes through it. It really doesn't detract from the stone, it looks more like sand on a beach. This pendant can be yours for only \$195. I expect that more than one person will want it because it would cost at least \$45 to have such a precious stone cut, it would cost much more than that to have it set in gold so you are virtually getting the stone for nothing.

We look forward to hearing from you and have a pleasant weekend.

Murray

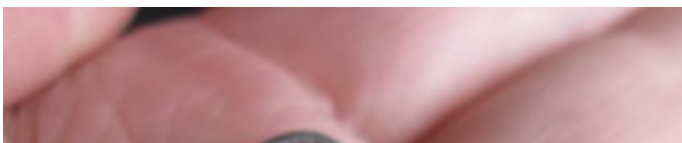

1. \$19 IMG_5719 Ring sterling silver 5.75
2. \$29 IMG_5724 Ring sterling silver size 6
3. \$35 IMG_5722 Ring sterling silver some small stones missing size 7.5
