**Subject:** **Lightning Ridge Strands OFFER 19 Jan 2012**

Hi folk

Today we have a number of beautiful strands from Lightning Ridge to show you. Lightning Ridge in outback New South Wales (720km from Sydney) is a town famous the world's richest deposit of black opal. Its elusive and distinctive black opal is unique to the area. With the cost of mining and fuel, production has dropped in recent years well over 50% and of course that has affected the price. You'll be pleased to know that your beads have been made from Lightning Ridge rough opal that was mined in boom times and thus at very reasonable prices. You'll also be happy to hear that we have priced these beads so competitively that you are buying them in US dollars for the amount that your dollar was worth against the Australian dollar 2 years ago. So not are you only getting beautiful material here you are definitely getting it at the right price. We particularly like IMG\_2509 7-10mm round 147cts for only \$235 with its large beads and consistent greys, blacks and blues; IMG\_7893 6-7mm round 81cts for only \$450 which is a very beautiful strand with some blacks and vibrant dark blues; and IMG\_6653 6mm round 82cts \$125 which is terrific value at such a low price.

Regards

Murray & Heather

Lightning Ridge

1. \$95 IMG\_6641 Lightning Ridge 6-7mm round 85cts
2. \$115 IMG\_5384 Lightning Ridge Black 6mm round 83cts some colour
