

Today we have some magnificent Boulder and Lightning Ridge cut stones to offer you. The pictures speak for themselves but I see there is one little Lightning Ridge stone weighing .69ct we are putting that in as a special at half price, it was \$700 it's now \$350 to the first person who gets back to us.

There are five solid Boulder opals in IMG_8128 for only \$150 each, you can nominate which stone you would like, we will separate if that will help you.

To buy a Boulder stone for only \$45 that measures 15mm x 14mm is absolutely ridiculous but it's here.

The beautiful Lightning Ridge 16mm x 13mm 8.21cts for only \$1,642 is a super buy as is the brilliant Boulder opal 8.8cts Super Gem for only \$1,850.

You will go a long way to get a Blue Green Crystal Black 2.77cts for only \$250, that's an absolute bargain as is the little Boulder solid 2.7cts showing lovely Reds and Greens for only \$145.

There is another Black opal in there from Lightning Ridge it was \$180, it's a 12mm x 6mm, we have it on special for half price only \$90, don't ask me why.

If you are a dealer and you would like to have a lot of stock for very little money you can't go past the 20 Boulder opal solids that we have on special, the whole lot is only \$1,750, that's an average of \$87.50 each. That would be the biggest bargain in the whole Offer apart from the half price stones.

We await your orders.

Murray
