Subject: Mintubi Preshaped Opal OFFER 21 Mar 2012

Hi Folk

Today we have a very unusual Offer and one that those of you who are not terribly efficient at opal cutting will find very attractive because we have a parcel of Mintubi that has been preshaped into opals and teardrops. All you have to do is work them a little more and put a polish on them but you can see exactly what you are getting and believe me you are getting them at a bargain price.

This Offer will also be most attractive to a professional opal cutter because every stone is of commercial quality and there is plenty of profit left in them. As you can see they are all beautiful and prices range from only \$75 to \$250 for individual stones, most of which are gem quality. As a professional cutter you will appreciate the value I'm sure and you will be well aware that you can't buy the rough opal to cut stones like this for such little money. I particularly like the little pear shape \$102 stone, the magnificent 24mm x 12mm oval for \$430 and the 31.4cts of six stones at only \$40/ct is an absolute gift.

If you are not a cutter yourself but you want to take advantage of this very sweet offer we would be prepared to send stones to our cutter to have them cut at a most reasonable price. I strongly suggest you buy the \$430 stone and wear it as a ring, if that stone isn't worth \$1,500 my name isn't Murray Willis. You could also select a pear shaped stone for a matching pendant.

You will note that there aren't a lot of stones in this parcel so if the stone that you want has been sold don't be too disappointed as I have more and if you ask to see more I can weigh them up and Heather can take pictures and forward them to you personally. Believe me this is one hell of a deal.

We look forward to hearing from you.

Regards

Murray
