HB

Here's a chance for a small professional cutter. I have just come back from Coober Pedy, I should write a story about it. It was a wonderful and quite a successful trip. I was nearly in the middle of a fist fight in a restaurant between two of my friends, they were arguing over \$20,000. That story can be for another day.

Today I am offering you a small Opal Valley parcel with 4 grades.

Grade #1 is .73oz with brilliant opal, you can cut some quite large solids and there's even some brilliant doublet material.

Grade #2 is 3.5oz of brilliant chips and small stones.

Grade #3 is 1.3oz of White Base Reds & Greens, also some very bright stones.

Grade #4 is 3.8oz of small stones, many of them are brilliant colours, if there were in large stones like the first grade you would be talking a minimum of \$1,000/oz for much of this material.

I total this parcel conservatively at \$1,330.

Today we offer you this parcel as a parcel for only \$1,000US. Now in one way I am loathe to do this because we are only going to be able to have one buyer which may leave four or five of our good clients unhappy and lamenting so please be quick.

Good luck. I had to sit in a vehicle for 14 hours and fly home in an aeroplane 4 days later to get this parcel but fortunately there were other larger parcels and some magnificent individual stones. If you would like to see anything from my last trip drop me an email and Heather will send you some images.
