Subject: **SPECIAL OFFER 26 Aug 2011**

Today we are going to have a special offer with just six specials.

The first is a magnificent Andamooka Painted Lady, it weighs 7.65oz, it has brilliant reds, greens & golds. It is approximately 3.75" x 2.5" x 1" high, this is a magnificent specimen and is only \$495.

For those of you who would like to cut a magnificent Coober Pedy stone I can highly recommend the piece weighing 1.36oz. It is approximately 2" long and 1.5" wide and approximately .5" thick. There is brilliant colour in there which goes right through the stone, this is one hell of a buy for only \$544.

I have one Black Mintubi stone .223oz, it measures 34mm x 16mm and is approximately 8mm thick. It has beautiful red from the top of the stone you can see just how brilliant it is going to face it's sitting on very black potch. It will make a magnificent pendant stone or make a matching pair of earrings. This stone is not to be missed, it is only \$780 and when you work out how much per carat that is with the finished stone is you'll realise what a hell of a bargain it is.

There is an 8 Mile stone here that is absolutely skin to skin and choc a block full of colour weighing .76oz it is very bright only \$1,200/oz or \$912 for the piece. You will cut a lot out of this matching earrings, ring, pendant you name it, it's there. You might like to face it from the side but it does face beautifully from the top as well. At its thickest point this stone has its most brilliant colours and is 15mm thick, 1.75" long and well over 1" wide. This stone would be as easy to cut as a potato it's just full of colour and I can highly recommend it to you.

For those of you who like black opal I have some Black Lambina here .825oz for only \$2,000 the lot. There are 9 stones and each stone will cut a stone. Of course the largest stones are going to be where the money is, the little ones are the bonuses. If you are not sure about cutting black opal perhaps we could come to an arrangement and cut that little parcel for you.

Last but not least is the little sister to Big Red, have a look at our website:

this stone is brilliant, it is 2" long, 1.5" wide and 10mm thick and the colour goes right through it.

JUST TAKE THE SKIN OFF THE TOP AND MAN YOU HAVE
AN OPAL!!!!

This piece is 1.16oz, it's a Mintubi Super Gem, \$6,000/oz only \$6,960. If you would like to talk to us about a payment plan we would be happy to work with you. You

will never buy another opal like this. Princess Diana tried on Big Red and unfortunately she never bought it. You can see from the top of the stone just how brilliant this piece is going to be. It is a collector's item and one of the best opals you will ever see. I implore you to think about it at least.
