Hi Folks

In the early 2000's a very prominent gallery in the most prestigious Sydney Rocks area by the Sydney Harbour Bridge closed down because the owner passed away. His wife has just put \$100,000's opal and other gemstones up for auction, one of which we attended and secured these for you.

The Super Gem Chrysoprase pendant as I am sure are some of the Super Gem Beads is probably from the Marlborough Chrysoprase Mine in Queensland and that was closed 15 years ago, it is a **magnificent piece** with a very even colour throughout. There are a few darker marks in it that you can roll about and imagine different animals or birds, for instance I can see a squirrel one way, and a kookaburra another. This is the only 40mm x 30mm cut Chrysoprase stone that Australian Opal Mines has ever had and I doubt that we will ever have another one, certainly not as good as this. Because it is set in sterling silver it is difficult to say how many carats it is, the whole thing weighs 82.5cts so there would have to be at least 60cts in the stone. At that rate you are only paying \$4.16/ct and getting the silver setting for nothing. I expect that this could well be the first item to sell in this Offer and it could well be that 4-5 people will want it, so please be quick.

The beautiful Chrysoprase Super Gem necklace was for sale for \$3,250 years ago in the gallery, it is 11mm round and 21" long, most necklaces are only 16" long, these beads are **perfect**.
