HB

I think you are aware that I have just returned from Coober Pedy. One of my mining friends was looking for some extra beer money and a bit of cash to feed his cat and new puppy so he parted with the beautiful shell below. I know you'll like it, it is 36.45cts so only \$17.83/ct \$650 which is ridiculous for this very bright/gem colour.

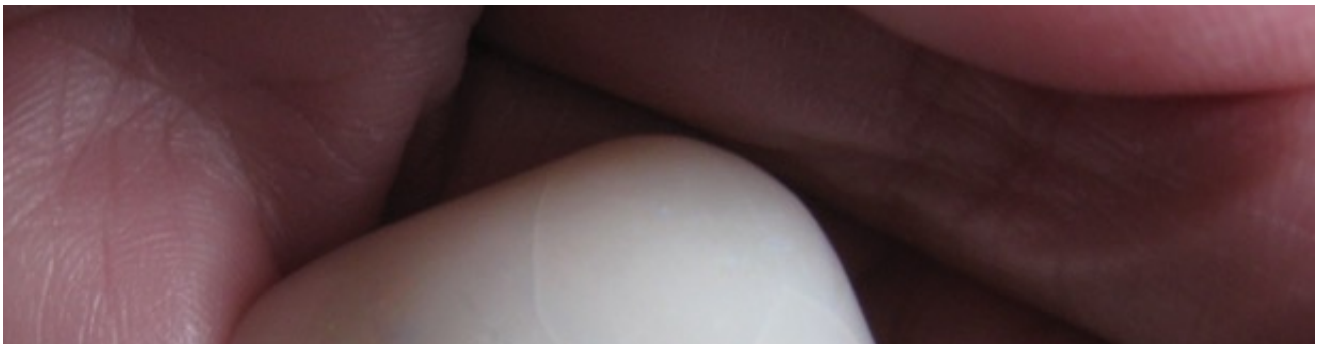

There is one crack that is visible on the face on the right hand side about one third in, there are three cracks on the back of the stone but nothing takes away the beautiful gem colours in this stone. On the back of the stone there is a beautiful blocky pattern where the flashes roll from orange into reds and greens into blues, it's not harlequin but it is brilliant. This would could be wire wrapped but maybe it's really too good for that. I love this stone.

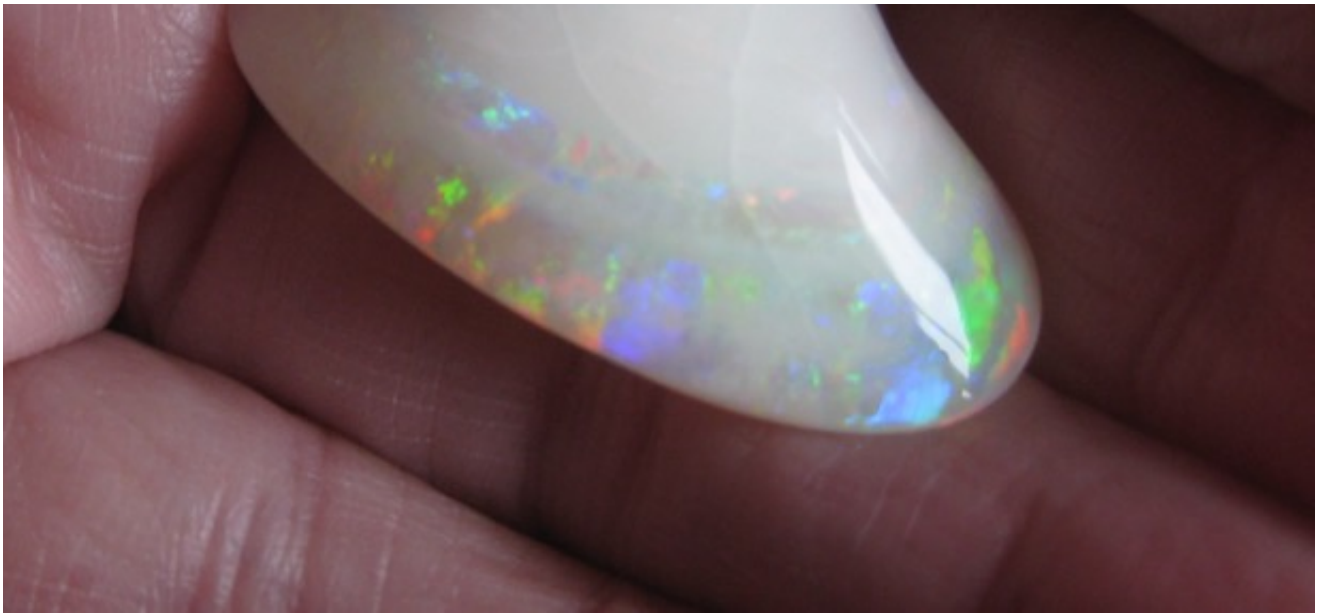

Again, we only have one shell in this Offer and there are going to be many, many, many sets of eyes looking at it. If you are considering purchasing this shell my advice would be again, not to hesitate.
