Subject: **What we are about OFFER 23 Sep 2011**

Our Friends

Today we are going to send you a cross section of what Australian Opal Mines is about, we are sending you rough opal, cut beads, carvings, a couple of faced off stones, triplets and even an exquisite shell. Take a look at that shell from the end where you can see the brilliant colour inside. This stone is only \$900, it's a lovely shape, shaped like a cockle shell, once the skin comes off it boy there is some colour for a cut stone, some of the colour in this stone is worth at least \$250/ct.

The Mintubi on Sandstone that's faced is 34.2cts, you don't have to do a thing to this, you can just wire wrap it or have it set, it could actually be drilled from side to side and you'd have a ready made pendant, it's only \$115. Now the colour towards the pointy end of the stone, you are talking at least \$100/ct. Okay, the other end I grant you is nowhere near that but the stone could be recut, it's just faced up and is a beautiful thing.

Take a look at the Mintubi rondel White Base Reds & Greens strand for only \$15/ct, it's a crazy price. If this strand were in a shop it would cost you a minimum of \$9,000.

We would urge you to go to our website:

<http://www.shed.com/aom/cuts/triplets.html>

you will see some Triplets there, we have them from 6mm x 4mm right up to 18mm x 13mm.

I absolutely love the Lightning Ridge Crystal Nobbie, double sided, beautiful blues and greens for only \$182. You'll never buy such a stone for such little money. I can highly recommend that to you.

Again first in best dressed. We hope to get knocked over in the rush.

Regards

Murray
